## Table of contents

- What is your favorite college football team?
- Who do you think will win the BCS this year?
- Please rank this region's "readiness" to embrace the advanced air mobility initiative.
- What are some of the advantages our region has to host this type of technology?
- What are some of the challenges our region will need to overcome to host this type of technology?
- What do you find most interesting about this conversation? What are your key takeaways?
- What type of activities should we encourage to foster this conversation moving forward?

What is your favorite college football team?

0 2 3

Who do you think will win the BCS this year?

0 1 3

**Please rank this region's "readiness" to embrace the advanced air mobility initiative.**

0 2 8

Ready and willing

Not ready, but could be with a lot of support.

Somewhat ready

Not ready

**What are some of the advantages our region has to host this type of technology?**

0 2 9

What are some of the challenges our region will need to overcome to host this type of technology?

0 2 9

## What do you find most interesting about this conversation? What are your key takeaways? (1/2)

0 2 1

- Happening so fast
- Information sharing
- Safety Continuity
- The travel time between local areas via eVTOLs
- Our planning and zoning needs to be updated
- If we don't do it then another region will
- The speed at which the industry is coming
- Didn't know that Orlando had a Mobility Innovation Manager, need to use that as a local model
- It's happening !
- Ongoing project
- Challenging to justify public dollar investment
- Training requirements
- How the industry are involved and willing to invest in AAM.
- It's not a Fantasy
- This is happening
- Collaboration is critical
- Technology
- Importance of utilities
- Reduced noise of aircrafts.
- Collaboration

**What do you find most interesting about this conversation? What are your key takeaways?**  
(2/2)

0 2 1

- OEM strategies
- Coalescence around topic
- Challenges to economic justification
- The ecosystem approach

## What type of activities should we encourage to foster this conversation moving forward?

0 2 3

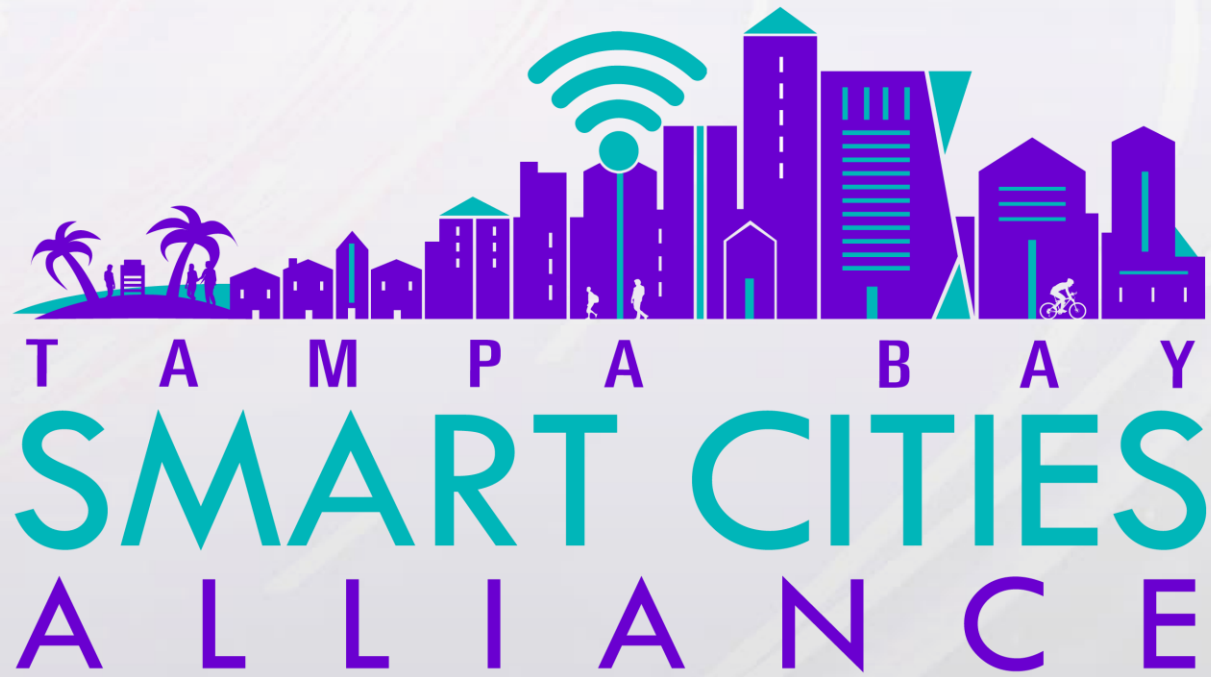

(1/2)

- Develop design criteria
- CEO first mindset
- Allow private industry to take lead
- Follow on dialogue to ensure legislative process is established properly to "GET IT RIGHT!"
- EVTOL experience centers
- Develop simulations of an integrated system
- Media collaboration
- Understand community perception/concerns
- Full ecosystem approach
- Fund Transit first to support AAM
- Engage FAA
- Tabletop planning
- Full version Prototype
- Hear from the Founders
- Regional collaboration
- Community surveys/outreach
- Testing
- Importance of multimodal connections to vertiports
- Research and planning
- Public outreach
- Economic impact for Tampa Bay
- Engage and continue to inform political leadership

## What type of activities should we encourage to foster this conversation moving forward? (2/2)

0 2 3

- Public and private stakeholder mapping and education
- Collaboration
